

2027 SUMMER INTERNSHIP

Flexicore of Texas is seeking passionate and motivated Engineering, Concrete Industry Management, or Construction Management interns to join our team. This internship offers hands-on experience and exposure in the precast and prestressed concrete industry in the following areas: Quality Control/Quality Assurance, Project Management, and Sales.

Flexicore of Texas is one of the nation's most established custom manufacturers of precast and prestressed concrete products, proudly serving the transportation, industrial, commercial, and fire protection markets across the United States. For more than seventy years, Flexicore of Texas has taken pride in producing a high-quality product while providing our customers with exceptional service. Our state-of-the-art production facility is certified by the Departments of Transportation in Texas (TxDOT), Oklahoma (ODOT), and Louisiana (LaDOTD). We also maintain a team of quality assurance professionals certified by the Precast/Prestressed Concrete Institute (PCI) and American Concrete Institute (ACI).

QUALIFICATIONS & EXPERIENCE:

- Individual pursuing a degree in Engineering, Concrete Industry Management or related field.
- Knowledge in engineering or concrete industry principles and practices.
- Strong communication and teamwork skills.
- Ability to work independently and in a team environment.

ESSENTIAL FUNCTIONS & RESPONSIBILITIES:

- Perform plant and laboratory testing of construction materials.
- Conduct research, data analysis, and preparation of reports.
- Assist with project management of precast/prestressed concrete projects.
- Participate in weekly production meetings.
- Review project plans and complete material takeoffs.
- Assist with the development of sales quotations.
- Collaborate with Sales and Quality Control Managers on various tasks.

SUMMARY:

This internship offers valuable, real-world exposure to engineering, concrete material testing, and project management processes within the precast/prestressed concrete industry. Join our team to develop your skills, work on meaningful projects, and make a positive impact on our communities and society.
